

Turning Green  
Vision To  
Sustainable  
Growth

# About Us

At Sitashya we believe every solar brand has a story worth telling — and telling well. We act as an extended marketing team and help businesses shape clear and compelling brand identities, clarify their message, and create the kind of lasting presence that stands out in a crowded market. With a unique blend of strategic thinking and creative execution, we bring stories to life and position brands for sustainable growth.

# Drone Thermography

Our Advanced drone-based thermal imaging solution is vital for efficient & accurate inspection of your large scale solar power plants, using special drones with thermal cameras to detect issues like hot-spots, faulty modules, or soiling across solar farms.
